

POST-LAUNCH SUPPORT

SiteLaunch Care

Peace of mind after launch.

\$199

per month

Defined support. No unlimited edits.

Your website should not become something you touch only when it breaks. SiteLaunch Care keeps it checked, current, and supported after launch.

What is included

01 Monthly website check

Links and forms, plus a basic uptime, SSL, and domain review. Obvious mobile or display issues are flagged.

02 Small website updates

Up to 60 minutes each month for text, image, menu, link, or minor layout changes.

03 Monthly visibility snapshot

A concise GA4 and Google Search Console summary once those accounts are connected.

04 Priority placement

Care clients are scheduled ahead of non-retainer small-update requests.

05 Quarterly website review

A short design, user-experience, and SEO health review every three months.

CLEAR SCOPE

Larger work is quoted separately.

New pages, major redesigns, ecommerce builds, large integrations, and full content production are not included in the monthly plan. You will receive a separate quote before any larger work begins.

KEEP YOUR WEBSITE WORKING AFTER LAUNCH

Add SiteLaunch Care to your website.

Monthly support for businesses that want their site maintained, monitored, and improved.
